About

Be in touch is end to end chat application where users

Motivation

In this pandemic the world has been relying on connecting remotely whether it comes to family occasions or official purposes . In such a situation , chat application like "Beintouch" can be used to connect to your friends , colleagues & family

To Make communication hassle free and reaching out to each other 24/7 .To make sure reaching out to each and everyone .It always means to connect each other at the same time feels like how much ever far staying equivalent to nearby staying shows immense connection a wire how much ever long,thick ,wherever it goes doesn't matter stays as long as connected by simply showing a sphere of Connection
